Janka Rating: 14 Very Hard

SRIBHB92-1

Pre-Finished Solid Timber

600 x 92 x18mm

Satin Finish

Tongue & Groove

Janka Hardness Rating

The Janka Test is a measure of the hardness of wood. The higher the rating, the harder the timber. Timber hardness defines how easily the material will tear. The softer the timber, the easier it will be scratched, marked, dented and worn down over time, which makes harder timber more desirable.

Hard

Soft

14 - Ironbark

11 - Spotted Gum

9.1 - Blackbutt

7.6 - Kempas

6 - European Oak

4.5 - Victorian Ash

WHY choose Ozworld pre-finished flooring

Ozworld Prefinished Solid Hardwood Flooring	Traditional Raw Board
<input checked="" type="checkbox"/> 12 layers PPG water-based Polyurethane coating with UV-cured lacquer	<input type="checkbox"/> Normally apply 2~3 layers coating
<input checked="" type="checkbox"/> Installation is easier and cheaper No sanding and coating required	<input type="checkbox"/> Spend more money on sanding and coating after installation of raw boards
<input checked="" type="checkbox"/> Odourless; can move in straightaway after installation	<input type="checkbox"/> Need to live with chemical smell for months after installation
<input checked="" type="checkbox"/> Residential Warranty : 25 Years in Structure 5 Years in Coating	<input type="checkbox"/> ???

12 Layers of PPG Non-Toxic Water-Based Polyurethane Coating

All Ozworld pre-finished floorings are coated with 12 layers of PPG polyurethane coating, ready for immediate use after installation without chemical odours. And also:

- Enjoy longer lifetime and care less
- Supreme performance in abrasion, indentation, and scratch resistance
- Safer than oil-based, fewer volatile organic compounds (VOCs)

With over 135 years of expertise

PPG:
We protect and beautify the world™

Enjoy with less hassle
